## USA Teams working with our Comayagua Community

This is an amazing picture of Brother Scott with his nephew Justin in the background working with the people of Comayagua in handing out solar lights, water filters and care packages to one of 6 home churches that we have established. God provides through the collaboration of so many churches such as Victory Highway, Higher Hope, Pennsylvania Ave UMC and so many more. To me this is an amazing witness in how the family of God can work together and accomplish exactly what God intended in the beginning. Kingdom building and unity among the Believers.

Al Erickson has a special place in his heart to see every child and adult with a pair of shoes.

When he starts collecting shoes and sneakers, so that these children can attend school here, he opens his basement and garage and puts the word out. Al, like so many of our returning team members, know that Honduran law states that a child must have a pair of shoes (black) or sneakers (white) in order to participate in class. This year Al's Higher Hope Team, in collaboration with the Penn Ave. UMC Team, brought down enough shoes and sneakers to bless the entire Comayagua community of more than 500 people!

This is Al handing out a pair of new sneakers to a boy.

This is our first tent revival in Comayagua. God was very present at this revival. More than 300 people came out with more than 80 children. We opened up with music and praise to our Lord led by Ben Holton and our Brother Brad came forth and opened up with a message from the Gospel. I came in to preach the word and invited anyone who would like to change their life for Jesus Christ. Well over 30 people came forth asking for Salvation and a change.

What happened after that was Signs and Wonders in a mighty way. The Holy Spirit presented itself and healed people from swollen ankles, to stomach pains, to infections, and so much more. A little girl around 12 asked me if I would pray for her and she received Christ as her Savior first and God healed her illness. But the most miraculous was a women in her 70's had a swollen ankle and I laid hands on her and we prayed and the ankle was healed. She was so thankful that she ran home and ran back with mangos in a bag to say, "Thank you." God is amazing!!!

This can only give you a little glimpse of how many we had. Plus we had many sitting outside in the sun listening from a distance.

All came Hungry and All left filled!!

Ana took the role of teaching the children

This woman is holding a filter to purify the water that comes from a well that holds dirty water. In Genesis 26 Isaac uncovered the wells to bring forth water and when the water came forth it was fresh water. We need to clean our wells and allow the Holy Spirit to well up in us with Clean Fresh Living Water. My prayer is that many will look for an encounter with Jesus Christ and the Holy Spirit. Our teams look for the same encounter when they come to Honduras. Our land is dry and the wells need to be opened up again.
