## Medical Team #6- September 27 – October 7, 2018

Life changing experience for our Medical Team of 13. So many witnesses to be given from things that are small to miracles that only Jesus himself could perform. This medical team was a blessing to over 8 Barrios and the entire Comayagua community of 500 families. They helped those who need Prayer, a Bible, a smile, a hug and help medically. A huge amount of sacrifice on the part of Dr. Bob and his wife Debbie who work for a whole year in advance purchasing creams, medicines through Blessings International and preparing documents to plane tickets just to get this team to come to Honduras. The team members have ton of work as well by getting all their legal paperwork together and notarized for the Honduran government. All this plus the time off from work where they could be in the mountains or on a beach with their families but they came to bless so many people! We are truly blessed to receive new friends, see old friends and work together to Glorify the Kingdom of God.

As we use the public schools we have blessed by our construction teams. We transfer them into small medical clinics. Top left photo is the triage where our team of 3 nurses with their translators take information for our Dr.'s. In the top right photo is where all our patients come through our Med Station where they pick vitamins, creams, diaper rash cream, Acetaminophen, Ibuprofen and Antibiotic Cream.

Then the patients pass on to one of 3 Dr.'s (Merlyn and Stevely husband wife team and Dr, Bob)

Then they move on to receive their prescription for High blood pressure meds, Diabetes and so much more.

In Comayagua it is transformation in taking on this Gazebo and turning it into a 3-room clinic plus pharmacy. Thank God for our youth groups and their leadership in making this all happen. It takes 45 volunteers and 3 buses from Tegucigalpa to make this happen. Hover more than 450 people were treated and helped in many ways. We saw cases of severe cuts and infections, to high temperatures, to children after taking a medicine for Parasites having them come out of their mouths at night time, to some cases that would just break one's heart and make you cry in hearing how they were raped by family

members and yes, they are in Jail. One young girl at 15 cried as her grandmother told her story and I witnessed to her through the story that wife shared with her. The young lady

smiled and I introduced her to Glenda. They were long days in the sense of so many needed prayers. One woman came to visit our team and told about her story that she came to our tent revival in June with our construction team from Victory Highway and how she returned to her home to be healed from gangrene and severe infection in her leg. The team's members who were there in June were amazed of the Glory of God and were blessed to witness this. God is alive and He is moving in a powerful way in Honduras.

It is amazing that 6 team members came from Las Vegas and all from different churches. Two more members came from Higher Hope Church, 2 more came from His Tabernacle Church, 2 came from Victory Highway and others from other churches. God is pulling all this together to show unity in community and with this in common and the devotional time at night it transformed so many on team in their faith walk with Jesus and brought them closer to God and returning them to serve more abroad and in their communities.

**THANK YOU, JESUS, AND ALL OF YOU WHO PRAYED, SUPPORTED AND HELPED IN ANY WAY TO MAKE THIS HAPPEN!!!!**
